

**IT'S
GONNA
DUMP!**

**12th Annual
MONSOON PARTY
& Canned Food Drive**
Hosted by Rob Weber & Pinnacle Mapping Technologies
A TON OF FUN

SATURDAY, AFTERNOON/EVE, JULY 16, 2011

OUR 2011 COMMUNITY PARTNERSHIP This year we're teaming up with the Northern Arizona Food Bank to fill some of their empty shelves. Let's share the wealth of our pantries. Please bring a non perishable canned food item (or several) to the party. We'll have a donation truck on site to collect your cans.

CAMPING Camping at large may not be permitted due to USFS fire restrictions, so log on to www.fs.fed.us/r3/coconino for an update on the camping situation. Bring a tent and **PLAN TO CAMP**. Feel free to camp out Friday evening or come out and set up your tent early to reserve a good spot. The Forest Service requests **NO** camping in the meadow. For safety reasons, please be aware of parking in tall grass/flowers so your hot muffler wont start a fire. Please don't camp under dead aspen trees. Kids welcome! Drinks, and toilets will be provided, however, I will not be providing food this year. There will be a gas BBQ available if you wish to bring something to grill. Bring a side dish to share, plenty of water, beer, and your own breakfast (don't forget the coffee). Camp chairs, rain gear and instruments are recommended. We will have a huge canopy in case it rains, so don't be scared!! We will be there **REGARDLESS** of weather!

In the event of forest closure, the party may be cancelled Please go to www.pinnaclemaps.com to check on the status of the party prior to attending.

ADMISSION We request a \$5 minimum donation per person to help offset the costs of beverages and toilets. All proceeds will go to the Northern Arizona Food Bank.

RSVP Please, please, pretty please RSVP. This is really vital to providing enough drinks. RSVP to Rob by July 12th: mapguyrw@gmail.com or call 928.380.0311

Directions Zero your odometer at Humphreys and HWY 180, then drive 13.8 miles west (towards grand canyon) and turn Right at FS 794, drive 2 miles, turn Right at FS 9001L, follow to the meadow.
